I wasn't really sure what to expect with Reconnective Healing but I could see how relaxed and peaceful Joane seemed. I was impressed by how passionate and knowledgeable Joane was when describing how it changed her. I have had different emotional and physical problems in my life. Since the sessions I haven't needed any pain medications and I have decreased the need for digestive enzymes. I do feel more tolerant and have had a healing of my mind, body and soul. I feel peaceful and have more energy that I thought possible. I am a registered nurse, which is a very stressful profession, and I would recommend the Reconnective Healing to everyone who just wants to feel balanced and connected.

In January 2010 I was diagnosed with Vertigo. After 4 months of going to see specialists, having tests and trying different medications my condition had not improved. I was actually getting worse with the attacks coming more frequently. My wife suggested that I try Reconnective Healing and the results have been amazing. It has been 2 months and I have not had any attacks, in fact I feel better now than I have in a very long time. Joane spent a lot of time with me after each session explaining different things I could do myself.

Joane did a remote distant healing on my son, my concern was that he spent so much time on the computer and that he was developing anti-social behaviors. However, being 18 and at the stage where they knows everything I knew he would be reluctant to go himself so I asked Joane to do the healing from a distance. She said it would not be a problem and it does not require any belief and that it would be just as effective. After the first session I started noticing results immediately. A more relaxed expression on his face, he started engaging in conversation more than he had in the past, after completing the 3 sessions the results are still continuing to unfold. I don't know what amazes me more, the changes in his behavior or my amazement to the changes knowing that this is due to the reconnective healing. After seeing these results I had Joane do a reconnective healing on my daughter and again the results could be seen immediately.

Being self employed and dealing with the stresses of work, home and life I thought I'd give this a try. To my surprise I suddenly was without hot flashes and everyone out there who has them knows what I'm talking about, it can be debilitating as I've gone without sleep for over a year. I began to have a

different outlook about things in general and felt a sense of peace and happiness. Life seems so much different now and is only getting better. I continue to notice changes in my life and would recommend this to everyone. Best of all that little voice that continues to chatter in your head has now stopped, leaving me with clarity and focus in my everyday life.

First hearing about Reconnective Healing I was and reluctant to give it a try. However, going several years without a goodnight's sleep and having constant joint pains in my fingers, I was open to anything that made sense. After it was explained to me that this type of healing is available to anyone and I didn't have to have faith or change my belief systems, well that almost decided it for me. What further convinced me was that there were no props used (crystals, chanting, amulets). Even though I didn't fully understand how it worked or why, I decided to have three treatments. Without going into great detail, after three treatments the pain in my joints hasn't disappeared but it has diminished to the point that I consider normal aches and pains. Also, after the first treatment I noticed that I was getting a restful night's sleep. I would still get up in the night, but this time there would be no problems going back to sleep. In the morning I would feel refreshed. Now having finished all three treatments, I am a believer. Still don't really know how and why it worked but it did and is continuing to work.

It has been close to a year since I have had Reconnective Healing and I cannot begin to explain all the truly wonderful things that have transpired in my life.

I feel that it is important that you know that I have never been one for holistic healings, naturopaths or even taking prescribed medicines from my doctor, but have taken them on occasion. My experience with Reconnective Healing began last September. I do not remember the specific day but I do remember when Joane approached me to have a Reconnective Healing done, I did not hesitate a moment before I said yes.

My first session was the next day, and not knowing what to expect I was very surprised that when night came I had actually fallen asleep without the aid of a

actually fallen asleep without the aid of a gravol. You see it had been several weeks since I started taking gravol to help me fall asleep as I could never quiet my mind. If I was lucky enough to fall asleep early I would awaken in the night and my mind would just start going all over the place and I would lose anywhere from 3 to 4 hours of sleep in the night. Since my first session I have not had a problem falling asleep nor have I had trouble falling back to sleep if I do awaken.

The last couple of years I began to experience SAD (Seasonal Affective Disorder) in the winter. Last winter was certainly the worst year ever as I could only describe my symptoms as being extremely depressed. I would take to the couch or bed right after dinner and

would not move. I also began to cry uncontrollable and was terrified of not coming out of that state. I was not looking forward to another winter. Well as you well know that winter came this year and it was a long and cold one. But this year was different, I did not suffer from SAD and even joined the gym as I needed something to do with all of my energy.

Anxiety was also a big problem for me almost like a sixth sense of when something was about to go wrong or I would just worry myself too much over little things. I remember times when I would have to take a half hour or so just to relax myself with some deep breathing which rarely ever worked. I have been very fortunate to no longer experience anxiety attacks.

I have found that I have become a lot more focused in all aspects of my life, as though all possible options and opportunities have become a lot clearer. I have more confidence in myself, in the person that I am and the decisions that I make.

As I have said I cannot explain all the truly wonderful things that have changed in my life, but the most important thing that has changed most recently is that I have a relationship with my daughter

who is yes, a teenager. We have become as close as when she was younger and still needed me for everything. It helps that she has had a healing as well and cannot tell you how great it is to have such a wonderful relationship with her at this time in her life. Don't get me wrong we are still

life. Don't get me wrong we are still human and have all the emotions that humans do but we communicate on the same level and have a new found respect for one another. This above all else has been the greatest gift of all and if this is all I ever received that would have been enough for me.

I have a great appreciation for what Joane has brought into my life, it truly has been the greatest gift I have ever received.

Joane introduced me to Reconnective Healing about a year ago. She explained to me that I might see results on many different levels and I am very pleased to say that I have. I had been experiencing feet and leg cramps at night for about three years. During my first session with Joane it felt like she was pulling something out of the bottom of my feet and my legs felt very heavy. Since that first session I am able to sleep through the night and I no longer suffer with leg and feet cramps.

I have a job that sometimes requires a lot of multi-tasking and I have to admit there were times when I would feel very overwhelmed. Since the Reconnective Healing I find that I am much better equipped to handle my job. I have a clarity and calmness about me that helps me handle my job and I find that because of this I am much more productive because I am not stressing over things.

At the time I started my sessions with Joane my husband was suffering with Vertigo. After many visits with Specialists and trying different things he was getting worse and his attacks were coming more frequently. I suggested that he have Joane do the Reconnective Healing on him and the results have been amazing. After his first session he was able to return to work and literally take his life back and do the things he used to do.

I highly recommend the Reconnective Healing to couples. My husband and I are in our early sixties and we had definitely gotten complacent with our lives, just going day to day and not really enjoying life to the fullest or making any real plans for the future. With this new level of energy and clarity about things we are going to make some major changes in our going to make some major changes in our life in the next few months. We are both very excited about the changes and can't wait to start this new chapter in our life.

For the last year I have been waking up several times in the middle of the night at which point I was experiencing an anxiety regarding my future, employment, health and welfare of my daughter. My mind would shift into high gear with an underlying angst. After just 2 sessions I have been able to sleep through most of the night and when I do wake, I do not experience the anxiety and busy mindset I had previous. In addition I have noticed that I am able to deal with confrontation on a much more controlled level.

Update June 2011

After a period of approximately 6 months I have become cognitive of the fact that certain habits I developed over a long period of time are directly responsible for a great deal of my overall well being and state of mind. I am now finding myself making a conscious effort almost immediately and seeking alternative solutions to relax and unwind that are far more healthy and inexpensive. I am slowly beginning to see that this is now creating a total new outlook to how I look at life in general. This all started in a session when I requested help changing a, for a lack of a better word non-productive daily ritual.

I am sure there is much more on the horizon and I look forward to seeing my whole emotional, spiritual and physical makeup get a re-connective facelift in the days ahead.

I am most grateful to have this implemented in my life to compliment my spiritual balance as a whole.

My name is Lindsay, Im 22 years old, after the re-connective healing I notice quite a bit of changes in my life. After the first session I got called for an interview for my dream job, and four days after I received a call that I had gotten the job. I noticed call that I had gotten the job. I noticed that most things in my life went from negative to positive pretty quickly. After the healing I have slowly distanced myself away from negative people in my life but in a nice way. I seem to have more clarity in my life lately and I know how to keep life positive and to get rid of the negative. Re-connective healing really helped me change my life around, I highly recommend it.

Lindsay
